(Irrigation - Minor) Bellary - Hadagalli, Harapanahalli and Kudligi taluks - Tanks breached in May - Repairs - Addl.staff - Proposals submitted.

The cyclone of the 20th May 1943 caused damage to a number of irrigation works in the Hadagalli and Harapanahalli taluks. In the Hadagalli taluk 13 M.I.sources in the charge of the Revenue dept. were either breached or badly damaged. Repairs to these are estimated to cost Rs.32,000/. The bunds of 2 M.I.sources were breached the surplus weirs of 2 others damaged and the bund of a 5th slightly damaged in the Harapanahalli taluk. Repairs to these are estimated to cost about Rs.7000/- Only 2 tankbunds were breached in the Kudligi taluk. The cost of repairing these 2 will be met from this year's grant. An application for an addl.allotment of Rs.39,000 will be submitted in due course. Meanwhile I have instructed the Tahsildars to attend to these works expeditiously. There was a shortage of M.I.Overseers in this district. Overseers who retired from service have since been appointed temporarily and the jurisdiction of M.I.Os. reallocated so that there is one M.I.O.in each of the cyclone affected taluks. This has been done with a view to ensure prompt attention to all urgent works. Estimates are now ready for 4 works in Harapanahalli taluk, 4 in Hadagalli taluk and 2 in Kudligi taluk. The remaining estimates are expected to be ready by the end of this month. The large number of tanks damaged in the Hadagalli and Harapanahalli taluks and the urgent need for closing the breaches under expert supervision demand an experienced supervisor at least to supervise the work of M.I.Os. The responsibility involved and the technical knowledge reqd. in repairing the damages is too great to be entrusted to M.I.Os. In these circumstances I request that the Board may be pleased to address Govt.for the appointment of a Special Supervisor and a clerk to assist him for the period ending ~~ex~~ 31-3-44.

1/10/43

Note:- With reference to M.S's query on p/cf. attention is invited to the Collr's letter on p.2 cf where he states that there was shortage of M.I Os in the district and that he has issued instructions to the Tahsildars to attend to the repairs expeditiously. In view of this the Collector also reports that estimates for some of the works are ready and that others will be made ready by the end of this month. In view of these facts it is for orders whether the Bd. should be further questioned about the delay. The draft order overleaf is for approval and may be sent to Fin. u.o. for acceptance.

Sn. 25/10/43 Repair of breaches would
25.10.43. depend on the nature of the technical
knowledge of M.I Os.
Only about 18-20 tanks were breached
& damaged in the May Cyclone. Very

little progress has been made so far towards their repair, owing apparently to lack of staff. No estimates have been prepared, though 5 months have elapsed & it is gain the rainy season.—

The M.L.S asked for may be sanctioned & the Collr told to expedite the repairs of tanks, and to ask for extra staff eg M.I.S, Cascadiers if necessary, so that the tanks may be fit to hold full supply this season.

2/ Progress reports of repairs of tanks damaged in May cyclone were not prescribed. Collrs in the cyclone affected dists may be asked to submit a report monthly on the progress made in repairs to the cyclone affected tanks

G.O. No. 654, 22nd February 1939

Vaccination—Gosha women—Services of women medical officers in Government medical institutions—Utilized for vaccination of—Expenditure on travelling allowance by local bodies—Permitted.

READ—the following paper :—

From the Director of Public Health, dated 8th December 1938, No. 1561-3-V.

Order—No. 654, P.H., dated 22nd February 1939.

A great majority of local bodies have at present no women vaccinators in their employ to attend to the vaccination of gosha women with the result that gosha women refuse in many instances to be vaccinated. This is a great handicap at the time of an epidemic. In order to overcome this difficulty the Director of Public Health has suggested and the Surgeon-General has agreed with him, that the services of the women medical officers attached to Government medical institutions should be utilized for the purpose. Arrangements will therefore be made to depute women medical officers in charge of the nearest Government hospitals to attend to vaccination of gosha women in times of epidemics of smallpox on the requisition of District Health Officers and Municipal Health Officers.

The Government consider that as the deputation of women medical officers is in the interests of local bodies to whose funds expenditure on vaccination is debitable, their travelling allowance should be met from the funds of the local bodies concerned.

The Government accordingly permit district boards and municipal councils to incur

Ref:- From the Bd. of Rev. Rec. Cr. 1960/43-1 W) 21.10.43

Orders have been issued to the Collr. of Bellary by wire sanctioning the employment of one Main Irrigation Supervisor and one lower division clerk for supervising the urgent work of repairing M.I. tks affected by the cyclone in May 1943. I am to add that the Govt. consider it very unsatisfactory that the Collr. of Bellary should apply only for special staff to carry out urgent repairs for damages caused to irrigation works last May. The Collector is presumably aware of the extreme urgency of works affecting the food supply of the country. I am to request that the Bd. will call for his explanation for failure to take immediate and adequate steps for repairs and to submit it to Govt. with such observations as the Board finds desirable
